DETAILED ACTION

Allowable Subject Matter

1. Claims 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art of record and to the examiner's knowledge does not teach or render obvious the instant invention, particularly characterized in claims 1 and 13, by the limitation of forming a heat sink layer on a heat resist layer and patterning the heat sink layer so as to expose a portion of the heat resist layer. Claims 2-12 depend on claim 1 and claims 14-20 depend on claim 13.
3. The closest prior art of record is Nakajima et al. (U.S. 2001/0010391 A1; hereinafter 'Nakajima') and Wu et al. (U.S. 2005/0062079; hereinafter 'Wu'). Nakajima discloses among other things, forming a heat sink layer, forming an opening in the heat sink layer, and forming an amorphous silicon layer on the heat sink layer and in the opening. Nakajima does not disclose the formation of a heat resist layer. Wu discloses forming in succession a heat resist layer (SiO_2), heat sink layer, and an amorphous silicon layer but does not disclose that the heat sink layer is patterned before forming the amorphous silicon layer to form an opening. None of the other prior art teach or make obvious the limitation of forming a heat resist and heat sink layer and patterning the heat sink layer to expose at least a portion of the heat resist layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
